

# July 16, 2012 Letter to the Editor

Dear Editor,

As a senior citizen in Van Buren County, I am encouraged by Paul DeYoung's plan for enhancing the confidentiality of the records in the Register of Deeds office through digital technology that is not available using analog microfiche. This technology has been implemented by every county surrounding Van Buren County and will help make Van Buren's office as easy and convenient as our neighboring counties without additionally compromising the confidentiality of our citizens.

I encourage you to vote on August 7, 2012, for Paul DeYoung for Register of Deeds.

Sincerely,  
Sid Shank
